## ***Art lending offers a relationship over time.***

For a limited period, my works enter your spaces –  
offices, practices, studios or private homes –  
where they accompany daily life, unsettle, and deepen perception.

My work centres on questions of belonging, home, and biographical ruptures.  
Its meaning unfolds through repeated encounters – in passing, in lingering, in everyday presence.  
Art lending is for those who wish not only to view art,  
but to integrate it consciously into their lives – attentively, over time, and in personal exchange.
